

THOUGHTS

Thoughts are silent impulses of energy,

Having the power to captivate and mold my mind.

Originating from within my heart, the center of my soul,

Urging me to make decisions, for either evil or good.

Grasping these impulses energizes me,

Harboring them in my mind motivates me,

Toward actions whose results bring about either blessings or sadness.

Sequences of thoughts are the most powerful forces at work within me.

These thoughts of mine are mine to choose and make,

However and whatever I desire to think.

Outcomes from my choice of thoughts,

Uniquely and urgently surround my being.

Guaranteeing a consequence,

Happening in an instant.

Tiny as these thoughts are,

Scripture in Proverbs 23:7 says, "For as a man thinketh in his heart, so is he!"
