

WORSHIP

Worship of Elohim, the triune Creator and Holy God,
Originate from our hearts with a spirit of love.
Rising above and beyond ourselves,
Seeking always and only to tell God's Story above.
Honoring the Heavenly Father with all of our substance,
Increases our understanding of His Greatness,
Precipitating our praises for His Love, Grace and Mercy.

Worship is not about us telling our story,
Only about the Lord Adonai who is worthy of our praise.
Removing all thoughts of selfishness,
Securing thoughts from within our being, we rise,
Higher than the physical realm that we occupy.
Inspiration moves us to rejoice in humble praise,
Presenting ourselves in faith to the Son, Christ our Savior.

Worship can be guided by the Holy Spirit as we pray,
Offering ourselves as an example when we tell God's Story.
Relationships are to be both horizontal and vertical,
Spreading beyond our lives for the sake of His Glory.
Humility of focus away from we ourselves is always appropriate.
Inights about God's greatness and worthiness are shared,
Preparing our hearts for rejoicing in His Presence.
